

Be part of a passionate
community of solvers

About PwC

At PwC, our purpose is to build trust in society and solve important problems. With offices in 156 countries and more than 295,000 people, we are among the leading professional services networks in the world. We help organisations and individuals create the value they are looking for, by delivering quality in Assurance, Tax and Advisory services. Our global strategy '[The New Equation](#)' reflects how we solve important problems facing the world—today and tomorrow.

At **PwC India**, our focus is three-fold. First, we commit to build trust by bringing together our capabilities to better serve the needs of our clients, as they seek to build trust with their stakeholders. Secondly, by bringing together our capabilities to enable our clients to create sustained outcomes through solutions that are human-led and tech-powered. A focus on Quality underpins each commitment we make for our clients. Last but not the least, through the PwC India Foundation, we aim to make a positive difference in the communities we live in. At the core of all that we strive to achieve is our people - our community of solvers, who come together in unexpected ways to make outcomes that matter.

In a world of technological disruption, we aim to enable our clients to build a secure digital ecosystem by increasing capabilities in emerging technologies, cloud, and analytics, among others. While doing all this, we remain a conscious organisation and that is reflected through our Corporate Responsibility efforts, our Net Zero journey and our ESG capabilities.

At PwC India, it's all about **One Opportunity. Many Possibilities**. A role with us can provide you opportunities to apply your skills beyond the workplace to create ground-breaking solutions for clients and our communities. Find out more and tell us what matters to you by visiting us at www.pwc.com.

Hiring

FTE - Technology Consulting

Level

Consultant/ Associate

Location

Anywhere in India
(In-person, fully-virtual or hybrid)

PwC Office

Job Description- Technology Consulting

What does this role entail?

The Consultant will be working for any one of the Technology Consulting competencies of PwC India. The Consultant may also choose to work on more than one competency during the first year of employment (on a rotation basis) before settling on a particular competency for long term association. However, such opportunities will be subject to availability of relevant openings in the respective competencies.

As a Consultant with PwC India, you will play a key role in the engagement execution. You will be provided with varied responsibilities including client acquisition support, assisting in solution design, contributing to engagement execution as a team member and on-ground client management. We encourage our consultants to participate in senior management meetings during the course of the project delivery. Consultants are provided with opportunities to contribute to various thought leadership initiatives. Our consultants are excellent generalists and have a strong ability to work with managers with diverse backgrounds. Typically, consultants start focusing on specific industries/functional expertise as they move up the hierarchy in the firm

What skill does it take?

Essential Skills

1. Basic problem solving skills
2. Excellent communication skills including proficiency in English language
3. Proficiency in excel and power point
4. Open to regular travel; in some cases extended stay in tier 2 and tier 3 cities
5. Self-disciplined and self-motivated
6. Ability to innovate, create lasting relationships and work independently with little supervision

*Please note - Scope of job requires travelling & coding.

Qualifications

- 60% or equivalent CGPA throughout academics and No active backlogs

Total Rewards Strategy

PwC India's **Total Rewards Strategy** aims to invest in its people and the value they bring to the firm. It's designed to provide a comprehensive, market-competitive compensation that recognises milestones and holistic well-being. A crucial part of this strategy is to ensure that our people are able to transform their careers while working with us – we make that possible by paving a continuous learning path for each of our colleagues, providing them opportunities to explore multiple roles within the firm, and recognising and rewarding them for the progress they make. We aim to support our people throughout their career at PwC, recognising the growth they achieve and the impact they make.

The PwC Story

PwC's Purpose - Our why

'The New Equation'

Diversity & Inclusion

We don't just accept diversity, we celebrate it. The diversity story at PwC India focuses on valuing differences—differences of gender, communities, religions, regions, sexual orientation, ability, generations, backgrounds, among others. These differences enrich us as an employer where our people can add value, fulfil their aspirations, build a high performing culture and define our future irrespective of these differences. Valuing diversity and inclusion is fundamental to the PwC Purpose of building trust and solving important problems.

Research & Insights

Leaders around the world are grappling with tough issues and challenges that impact wide-ranging industries and services. PwC has decades of experience advising clients and enabling them to make informed and measured decisions. We have put together a series of industry focussed thought provoking white papers that guide and enable our clients in their decision making. These are aimed towards helping our people identify and analyse the emerging trends across sectors, so that they can contribute better towards our growth by delivering value.
