

# **NPCI Research Fellowship Program – Online Coding Test**

## ***Instructions***

1. The final test link will be shared on the email id used by you to register for the NPCI Research Fellowship Program. You need to login to HackerRank platform using your registered email id. **Any email id other than the registered official id will be disqualified.**
2. The test link will remain open from 2026, April 18<sup>th</sup>– 26<sup>th</sup>
3. The test will be of 2 hours duration and will consist of 4 problem statements, all of which will be mandatory to attempt.
4. It will evaluate your data structures, algorithms, and programming skills.
  - You may solve the problems using Python, Java, C, C++, Golang, or Rust.
5. You can attempt the test at any time within the given window, but once started, you will have 2 hours to complete it.
6. Use only the provided coding environment/ libraries for each question. Do not switch between tabs.
7. Submit your answer frequently to avoid loss in case of technical issues.
8. This is proctored test; make sure your webcam is functional and positioned appropriately. Plagiarism is strictly prohibited, and any instance will result in disqualification and disciplinary action.

# Data Scientist Sample Test

Powered by HackerRank

You are invited to attend NPCI's assessment. We encourage you to go through the included practice session with questions similar to those you will see on the test.

Duration: **60 min**

Start Login Date/Time: [4 Sep 2024 12:00 AM IST \(Asia - Kolkata\)](#)

End Login Date/Time: [17 Jul 2025 12:00 AM IST \(Asia - Kolkata\)](#)

**Go to Test**

You can also use this [translation missing: en.candidate.invite\\_email.this link](#) to access the test anytime before the test expiry date above. Please check date and time in your time zone.

For any technical queries, please refer to [FAQ](#) or contact [support](#). For other inquiries please reply to this email to contact the individual who sent you the invitation.

- You will receive the test link on your registered mail id.
- Click on **START TEST**

# Instructions

1. This is a timed test. Please make sure you are not interrupted during the test, as the timer cannot be paused once started.
2. Please ensure you have a stable internet connection.
3. Before taking the test, please go through the [FAQs](#) to resolve your queries related to the test or the HackerRank platform.

**Continue**

**Try Sample Test**

- You will be redirected to Mock Test page.
- Click on **CONTINUE.**

## Confirmation Form

Create HackerRank account to start the test.

Already have HackerRank account? [Login here](#)

Email address \*

Full name \*

Password \*

☐ I agree to Hackerrank's [Terms of Service](#) and [Privacy policy](#).

[Sign Up](#)    

## Confirmation Form

Login to HackerRank account to start the test.

If you're new to HackerRank you can [create account here](#)

Declaration Statement \*

I agree not to copy code from any source, including websites, books, or colleagues. I may refer to language documentation or an IDE of my choice. I agree not to copy or share HackerRank's copyrighted assessment content or questions on any website or forum.

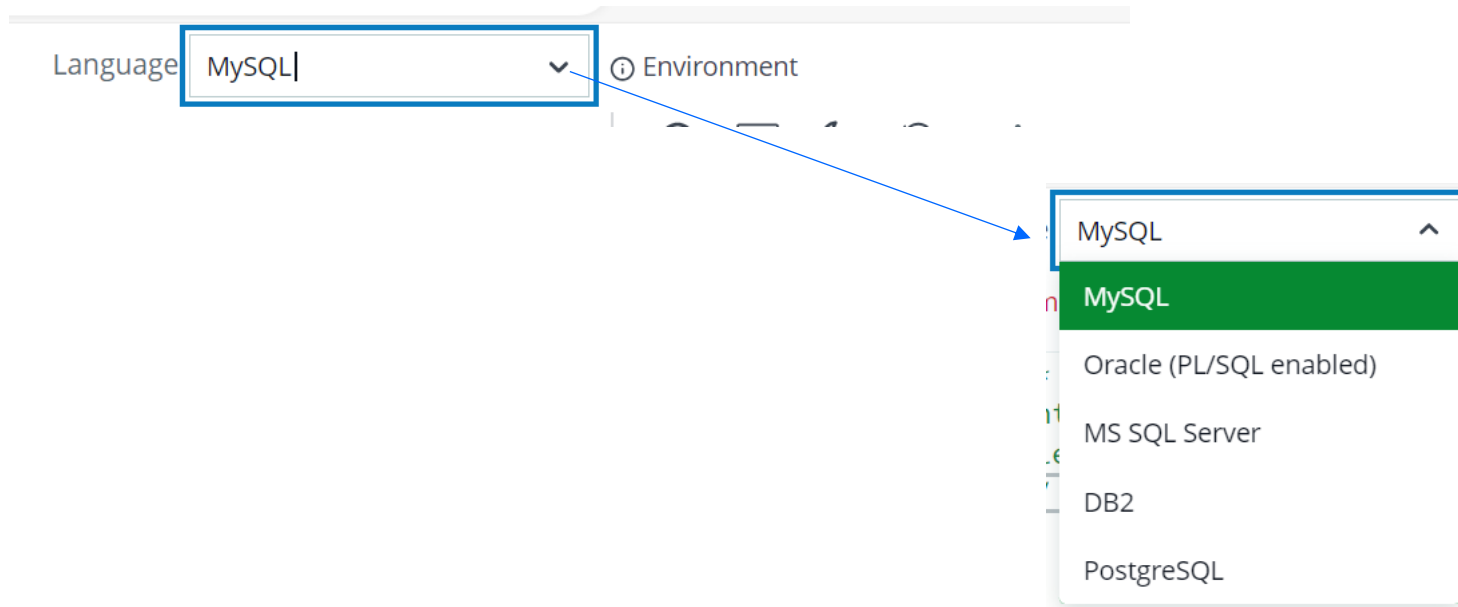

I agree to Hackerrank's [Terms of Service](#) and [Privacy policy](#).

Agree & Start

- Enter your login details and click on **LOGIN**.
- You will be redirected to confirmation page.
- Enter the work experience <1
- Click on **AGREE & START**.
- You will be redirected to Test Home Page.

- For Database questions, you will be able to select the test language and **START**.

# Test guidelines

## Stage I - During the Test

1. As the test is proctored, kindly close the irrelevant open tabs, email box, chat box or any other application opened as switching of tabs is prohibited.
2. If found using any sort of application or item to search for solutions or code snippets, the participant will be disqualified.
3. Be mindful of time constraints and allocate time wisely for each task. Prioritize solving the given problems efficiently as the overall time is 2 hours.
4. Maintain professionalism. No discussion with other participants is allowed while the test is going on.
5. If any misbehavior/malpractice found during the challenge process, the person will be disqualified.
6. Save your answers regularly to prevent loss in case of technical issues.
7. Follow the submission instructions carefully and double-check your code and responses before submitting. No request will be accommodated later.

## Stage II - After the Test

1. The participants need to confirm they have successfully submitted the code and ended the test.
2. Respect confidentiality regarding the online coding test externally.
3. Kindly share feedback once the form is released.

***Remember: Approach the challenge with a positive mind-set. The key is to stay focused, manage time effectively, and approach problems systematically.***
