

Job Description

Name of the Department	Information Technology
Role	IT Project Manager
Location	Kolkata - Head Office

Job Purpose / Summary:

We are looking for a dynamic B. Tech graduate to join as an IT Project Manager. This role involves managing and coordinating IT projects, ensuring timely delivery within scope and budget. You will work closely with internal teams and vendors to implement innovative technology solutions that enhance customer experience and business efficiency.

Duties and Responsibilities:

- Assist in **project planning**, scheduling, and resource allocation for IT initiatives.
- Coordinate with cross-functional teams to gather requirements and define project scope.
- Support **risk management**, issue resolution, and change management processes.
- Prepare project documentation, reports, and status updates for stakeholders.
- Collaborate with vendors and ensure adherence to quality standards and timelines.
- Learn and apply **Agile** and **Waterfall** methodologies in project execution.
- Work with data sets to generate insights and support decision-making.
- Contribute to continuous improvement and innovation in IT systems and processes.

Experience / Skillset / Certifications Required:

- Educational Qualification - B. Tech
- Strong proficiency in Microsoft Excel, including data analysis, pivot tables, and reporting.
- Skills and Competencies- Expertise in SDLC principles, methodologies, and tools - Strong project management skills (Agile, Waterfall, Hybrid)
- Proficiency in business intelligence tools (Tableau, PowerBI, Qlik, etc.)
- Excellent communication, stakeholder management, and problem-solving skills
- Basic understanding of project management concepts and tools (JIRA, MS Project, Excel).
- Familiarity with IT systems, CRM platforms or digital engagement tools (preferred).

Educational Qualification

- B.Tech in Computer Science / IT / related field

Preferred Certifications (Optional)

- Knowledge of **Agile / Scrum** principles.
- PMP or similar certifications.
