

About IndiaMART:

IndiaMART is India's largest online B2B marketplace, enabling manufacturers, suppliers, and exporters to connect directly with buyers. Founded in 1996, IndiaMART empowers Small & Medium Enterprises (SMEs), large enterprises, and individuals to do business seamlessly through technology.

Be part of an organization that is **leading innovation in technology** and has been consistently recognized for excellence and growth across India:

- CIO100 Game Changer award by Foundry
- Best DevOps Team at India DevOps Show 2025
- Best B2B Customer Experience' award at India CX Summit 2025 etc...

What We're Looking For:

We're on the hunt for **ambitious AI enthusiasts** to join our **Marketplace & Business Intelligence Team**.

You'll get to build **real-world intelligent systems** that impact millions of users — working alongside top-notch Product and Engineering teams on:

- Leverage **Large Language Models (LLMs)** in shaping B2B commerce.
- Real-time business problem-solving using **Multimodal AI & Agentic systems**.
- Building AI agents and automated workflows using LLMs
- Working with tools like LangChain, LangGraph, and cloud AI services

What is in it for you?

- **6-month Internship** starting **January 2026** with a **₹50,000/month stipend** leading to **full time placement**.
- Opportunity to work on **cutting-edge AI products** impacting millions of businesses
- Collaborative, innovation-driven work culture at **India's B2B technology leader**

Eligibility – B. Tech CS/IT from 2026 Batch, Class X, XII – 85% +
