

Frequently Asked Questions (FAQs) regarding Campus placement Process and Corresponding Answers – July 2025

(This version is developed based on questions regarding campus placement often asked by students going through placement processes and the experience of HRM department about the placement process over time including experience of interaction with different recruiters/companies – this will be subject to revision over the time)

Q1. When should I register in Superset so as to availing opportunities provided by HRM Department?

A1. It is mandatory for all the students, interested in **availing opportunities provided by HRM Department (Internship / Placement / Industry Connects and others)** to register in HRM Department portal “Siuperset”. Students are advised to visit Institute Website at <https://www.iiests.ac.in/IIEST/Notices/?type=Placement> for necessary guidelines for such registration in Superset. It is advisable that all interested students should register themselves in Superset under relevant drop-down option for pass-out batch, preferably immediately after being promoted to 3rd. semester for UG students and immediately after admission for PG students.

Q2. Do I require to Enroll separately in Superset after Registration? Why, How and When?

A2 Separate enrolment after ‘Superset registration’ for different event cycles is essential. Students interested in participating in different events i.e. internship (pre-final year), placement (final year) specific for different pass-out batches, they must enroll for the same.

Why - Students only registered but not enrolled, would neither receive any ‘notification’ (for placement/ internship) from HRM department nor would be allowed to participate in the events.

How - A student already registered in Superset can only enroll for a specific cycle of events related to a particular pass-out batch.

When - Enrolment cycle will open during or after the summer-break (prior to the beginning of new semester) for a particular cycle of events related to a specific pass-out batch. Interested students are advised to enroll at the earliest opportunity. Enrolment cycle close at the end of an academic year.

Q3. What are the important points for Superset registration & enrolment?

A3. Follow the detail steps/ guidelines available with the “notice of Superset registration” or “notice of registration/ enrollment” for a specific pass-out batch as published in ‘Notifications – Placement Notices’ in website of IIEST.

Q4. Are data/ inputs of students in Superset database checked/ verified?

A4. HRM Department never checks / verifies the data entered in Superset by the students. The onus of all data/ inputs provided by the student in “Superset” lies solely with the respective student only.

It is important to note that students' profile (data), as available within the Superset portal, may be shared with the external agencies (recruiters and others) whenever required. The onus to establish authenticity of the data entered in the portal lies entirely on the respective students. Students are thus advised to provide only authentic and updated data in the portal so as to avoid any adverse consequence at a later stage.

(For internal Circulation only within IIESTS)

All students are also advised to take a note that any wrong information provided deliberately or inadvertently by any individual would have reflection in relative ranking of other students in general. Thus, PRs in particular are required to keep a vigil on the overall database so as to ensure its authenticity. Please note that any kind of misinformation in Superset, if brought to the notice, would be suitably investigated and may attract disciplinary action.

Q5. When does Campus placement /internship season start?

A5. Placement season usually commence on after a reasonable gap at the end of summer break so as to ensure completion of internship of concerned students and further updating of the database related to the same.

Q6. Which Companies do participate in campus recruitment process?

A6. Several companies (of the order ~1000 nos) are invited for participating in Campus recruitment each year by HRM department while about 130-160 companies including very high-end, multinational, renowned Indian Companies usually take part as per the historical records. Names of any specific companies cannot be declared in advance.

HRM department maintains database for a large no. of prospective recruiters, which is updated on a regular basis. Additionally, all recommendations for fresh invitations from DTPC and/ alumnus or students are also entertained. However, decision regarding placement visit remains prerogative of the recruiters.

Q7. How companies are approached to take part in Campus placement?

A7. Formal invitation along with “blank template for FTE / Internship” (equivalent to Job application form or JAF) of our institute is sent to the potential recruiters for participation in campus recruitment process.

Q8. When a “Job notification” is done and how students are communicated about the same including other information of recruitment processes?

A8. Upon receipt of recruiter’s official confirmation to partake in campus recruitment drive with a “job profile” comprising eligibility criteria, JD, pay-package etc and other conditions as applicable the Job is usually notified (called Job Notification) to the target group (branch/ specialization as specified) of students through “Superset” inviting application from the interested and eligible students within the given deadline.

While job notifications, process notifications (containing schedule of test/ interview and other relevant information), shortlisting, selection, general notifications etc are primarily communicated through superset, however, at times depending upon situation and urgency, placement/internship related information may be passed through other alternative ways like email, phone etc to facilitate quick communication, through student placement representatives (PRs) or student coordinators (SC) designated for a specific event process or directly to the concerned/ target group of students.

Regarding “inbound job notification” please see the information given at the end of this FAQs.

Q9. Who decides the course & discipline/ stream to be considered for a specific job profile of a Company’s recruitment drive?

A9. The recruiting Company decides about the same. The blank template (JAF) which is shared by HRM department with the Company includes list of all courses & streams of UG, DD, PG. It is the prerogative of the recruiting Company which courses/ streams to pick from the list and this is not decided by HRM department.

Q10. Who sets the eligibility criteria for a specific job profile of a Company?

A10. The recruiting Company solely decides about the eligibility criteria e.g. Branch/ stream, cut-off marks, backlog criteria, age, year gap, other specific skill etc.

Q11. How the Campus recruitment process of a particular company takes off?

A11. In response to a specific job notification in Superset, eligible and interested students apply through Superset. Subsequently, the list of interested and eligible student-applicants with requisite database is shared with the recruiter to take the selection process forward by the recruiter.

Q12. How screening/ shortlisting is done from the list of applicants?

A12. Screening/ shortlisting at any stage of recruitment process (e.g. initial application stage, assessment test, GD, interviews etc) are the prerogative of recruiter. HRM department has no role in this context.

Q13. How do I get notification about the schedule of selection/ recruitment events?

A13. Student-applicants are normally notified/ informed through Superset/ email about the date & time schedule of selection events (PPT, Test, GD, Interviews etc), related guidelines/ instructions etc upon receipt of confirmation of the same from the recruiters including progress of events along with the stage wise shortlist as applicable and as received.

Q14. What is the mode of selection events - physical or virtual?

A14. Selection events may include PPT, assessment tests, GD, Interviews etc as applicable. Such selection events may be through virtual/ physical or hybrid mode (part virtual & part physical) depending upon prevailing situation and recruiter's preference/ policy.

Q15. What do I do if 2 or more events are overlapping/ scheduled on the same date?

A15. While HRM department exercises their best efforts in consultation with the recruiter to schedule an event avoiding conflict with other events, however, overlapping of events of different recruiters may not be fully avoided due to constraint of time, preference of recruiters, and sudden rush of several companies around the same date/time and due to recruiters' fixing schedule unilaterally of their own without consulting HRM department. Under such circumstances students are advised to pick their choice(s) of participation suitably.

Q16. What happens if I remain absent from participating in a recruitment event?

A16. All applicants (after shortlisting, wherever applicable) must not be absent from participating in selection process. Absence without valid & acceptable reasons (duly endorsed by respective DTPC faculty member & HOD) will deserve serious consequences in terms of availing further placement opportunities as explained in placement policy (Norms & regulation). Prior information under extreme emergency (subject to verification) may be considered.

Q17. What happens if I come late or join late in a selection event?

A17. Late comers or late joiners will be treated as Absence from the process and norms of absence as explained in answer to Q16 will be applicable.

Q18. When do I need to register through company's portal/ link for a campus recruitment?

A18. Some recruiters may require that students should apply/ register through recruiter's portal/ job link to become eligible to participate in the selection process. For such cases, besides applying through Superset, students must register through company's link/ portal. These

recruiters usually schedule the selection events unilaterally of their own and student-applicants are required to follow the same.

Q19. How do I know the result/ selection/ outcome of campus recruitment process of a Company?

A19. Upon receipt of confirmation of “selection” from the recruiter through official communication (mail/ letter), it is notified through “Superset”.

Q20. Why some jobs are intimated through “general notification” (and not as job notification in superset) and how to apply/ proceed with application for jobs against such general notification?

A20. When a specific recruiter shares a recruitment plan through some open competition/ common or PAN India recruitment drives across many institutes, such information is published through a “General Notification”.

For such “general notification” students are advised to register/ apply directly to the recruiter’s portal or job-link and take part in the processes as set by the recruiters. In turn, usually students are also communicated directly by the recruiters.

In case of selection for job offer against such “general notification” the same will be routed through the HRM department and will be considered as “campus placement”.

Q21. When do I get LOI/ offer letter from the Company following selection?

A21. Issuance of LOI/ offer letter and its timing are prerogative of the recruiter which may not be necessarily during the academic tenure even. Our experience suggests that it varies from company to company and depends on policy, strategy and internal matters of the respective Company/ recruiter.

Q22. What are category A, B and C jobs?

A22. Refer prevalent “placement policy” at IEST shared with the students

Q23. I am selected for a Category A job; can I avail other campus placement opportunities?

A23. Follow the prevalent “placement policy” at IEST shared with the students

Q24. I am selected for a Category B job; can I avail other campus placement opportunities?

A24. Follow the prevalent “placement policy” at IEST shared with the students

Q25. I am selected for a Category C job; can I avail other campus placement opportunities?

A25. Follow the prevalent “placement policy” at IEST shared with the students

Q26. Where “placement policy” can be found?

A26. It is shared with the students enrolled for placement in superset

Q27. I have a PPO; can I avail other campus placement opportunities?

A27. Students getting a PPO as a consequence of internship secured through “Campus Internship placement” are bound to accept the same as per the agreed placement norms and/or as per terms of specific internship notification. Such students will not be allowed to avail any other Campus placement opportunities irrespective of any category.

Q28. I am interested in specific category and specific type of job profile – can I apply selectively to suit my choice?

(For internal Circulation only within IESTS)

A28. Given the focus on achieving complete placement of entire batch of students, institute's placement policy strongly discourages such selective & opportunistic approach. Such approach reduces possibility of conversion to job offers which in turn impacts the placement statistics. In view of this, the following are included in placement policy.

- If a student found eligible but not applied against **consecutive 5 job notifications** (irrespective of categories), it will be construed as the concerned student is not interested in securing a job through campus placement and may be barred from availing further campus opportunities as detailed in relevant clause of placement policy
- If a student found eligible but not applied against **consecutive 3 job notifications** of a specific category, it will be construed as the concerned student is not interested for placement in the same category and subsequently the student will be blocked in that category as explained in relevant clause of placement policy

Q29. Can I know in advance which companies are going to take part in campus placement or how can I know companies in pipeline for recruitment process?

A29. HRM department is unable to announce in advance about participation of a specific Company in 'Campus placement drive'. When a particular company confirms officially for participating in the "campus placement" with requisite details of job profile & eligibility criteria for initiating the recruitment drive, the same is notified to the students.

There is no concept of recruiters in "pipe line" as such or the list of probable recruiters,

Q30. What are core and non-core companies in respect of recruitment process?

A30. The tag of Core and Non-core companies appears to be non-existing/ misleading and a matter of individual perception and it is hard to demarcate going typically by the name of the Company or its type of business/ function known broadly.

While an IT service (typical non-core) may recruit students of core branches and offering posting in R & D, design & innovations etc and a typical Core-sector may recruit for the role of data scientist, analytics, robotics, marketing or others. Core or non-core activity largely depends on the specific post, assignment and the job being handled and this would vary in different stages of one's tenure in any specific organization.

Q31. How to proceed/ deal with if someone is selected for multiple job offers?

A31. Given the provision in "placement policy", multiple selections/ job offers of FTE in different categories (A, B, C) are a possibility. For such scenario, according to the placement policy, the higher category offer prevails i.e. category C prevails over category B or A and likewise category B prevails over category A.

Besides the above, there might be more than one selection in the same category, as often several campus drives run simultaneously or due to late announcement of result by some recruiters. Under the circumstances, institute follows the norms of "result declared earlier" stands valid. To explain, a student is reserved for the recruiter with "early result" while the others are informed about the non-availability of the said student. In parallel, another possibility of multiple offers could be when recruiters or its hiring partner directly informs the student about selection or through their recruiting portal/platform.

For such cases of multiple offers as explained, students are advised to communicate the recruiter whose offer is subject to declining, directly with copy to HRM. Such communication (mail/ letter) should be written in proper manner maintaining a formal & proper etiquette, strictly avoiding any tone/ content that might bring disparagement to this institute.

It is advisable to communicate to the recruiter by the student at the earliest opportunity as it will help the company to do their manpower planning and it may take someone as replacement/ from the waitlist.

Q32. If a student secures a placement separately through his own/ personal initiative, will it be a part of campus placement or not?

A32. If such selection is routed through the HRM department or this institute at any stage for information/ acknowledgement/ verification/ consent and/ or concurrence, this will be considered as "Campus placement" and the relevant campus placement norms would apply accordingly.

Q33. What happens if a student adopts unfair means/ malpractices during any selection test/ event?

A33. Any student found/ reported by recruiter to adopt malpractices/ unfair means and/ or flouting the rules & discipline of the process at any stage of selection process, the student is likely to be ousted from the particular recruitment drive and would be liable to face serious consequences as explained in placement policy.

Q34. Why attending a PPT (Pre-placement talk) is said to be mandatory?

A34. Attending PPT is generally considered a part of overall evaluation process by recruiters. Attendance list of participants in PPT with late-marking would be submitted to the recruiters as demanded. In any case attending the PPT would better equip the candidate to face the subsequent interviews.

Q35. What guidelines are to be followed during participation in interview/ selection events?

A35. i) Students must be in formal attire during the entire recruitment process (in all recruitment process/ selection events). Casual wears are strictly forbidden ii) Must be present in online (virtual mode) or in the defined venue (physical mode) before the schedule time
iii) Must carry all necessary IDs, certificates and other testimonials (both original and photocopies).

Q36. What IDs and documents we need to present/ carry for selection events of a company?

A.36 The following IDs, documents and testimonials are mentioned as general guidance.

- College ID and other Govt. IDs (Adhar, PAN, Voter ID, PP as applicable)
- All mark sheets/ grade card & certificates (original & copies)
- Copy of CV with photo
- Other documents in support of specific skill, achievement as applicable

Note: exact requirement and type of documents should be checked with specific requirements of a particular recruiter.

Q37. Can I upload multiple CVs in Superset?

A.37 Students may upload multiple CVs against different profiles in Superset as per their choice. It is the responsibility of the concerned student to mark a particular CV or the latest CV suitably (with asterisk etc) as applicable against a specific job application as the CV may be shared with recruiter, if needed.

Q38. Is my college ID card mandatory to participate in campus placement process?

A38. Yes. As a student of IEST exhibiting college ID is mandatory for participation in Campus placement process. Please ensure that you have a proper Institute ID issued by the appropriate authority prior to commencement of the Campus recruitment (placement/ internship) season.

Q39. I have missed the deadline of registration of a job application, how can it be helped?

A39. Students must honor the deadline of registration. Deadline of registration is usually decided based on recruiters' demand. Thus, missing a deadline generally cannot be helped, and would lead to loss of opportunity for the students.

Q40. Does HRM department verify background of the recruiting companies?

A40. Besides receipt of information from the company/ recruiter against questionnaire/ blank template (JAF) of HRM department, IEST and confirmation mail from the recruiter for participation in the campus recruitment drive, no separate verification is carried out. Students are advised to verify/ check the recruiter's background from their end before application for a specific job-profile.

Q41. When should I upload my semester-result in Superset?

A41. Students are recommended to upload and update their latest semester result/ CGPA immediately after its publication. Updated CGPA (and or % of marks) as per the latest semester result are shared with the recruiters. Students without the latest CGPA may not be considered by recruiters for selection process.

It is the responsibility of the students (registered for placement) to be vigilant about uploading of the latest/ current CGPA of all students (as applicable) in superset so that one is not benefitted of relative ranking (by not uploading the latest result) at the cost of other student who has uploaded the same and vice-versa.

Q42. When & how are the companies invited to participate in the campus recruitment process?

A42. Formal invites to all the recruiting Companies (available in the database of HRM department) are usually sent in the month of June-July ahead of the placement season. Follow-ups are also done further to the formal invites after a reasonable period of interval.

Q43. How HRM department can be approached for placement related queries?

A43. Student with individual queries may visit HRM department between **11.30 am – 1.30 pm** and **3.00 pm – 4.00 pm** on working days.

Common queries/ issues concerning a group of students should be **e-mailed** through PR/ designated student coordinator to the concerned faculty of HRM department.

Individual student may write/ send email with specific question to the HRM faculty only in case of exigency.

Q44. What are the contact details of placement team of HRM department?

A44. Contact details are mentioned below.

Prof. K. Mukhopadhyay, Faculty, HRM Dept., kajal.mukhopadhyay@hrm.iests.ac.in

Prof. (Dr.) P. Chatterjee, Faculty, HRM Dept., prasun.chatterjee@hrm.iests.ac.in

Prof. (Dr.) M. K. Sanyal, HOD HRM department, email: hodhrm@iests.ac.in

Mr. Sudipta Das, HRM department, email: sudiptadas@office.iests.ac.in

(For internal Circulation only within IESTS)

Q45. Can I withdraw myself from participation of a selection process at any stage of a recruitment drive?

A45. If a student applies for a job through campus placement, is not allowed to withdraw from the selection process, unless rejected by the recruiter during the stages of selection. Voluntary withdrawal from the placement process by a student would be treated as absent from the process and necessary measure as explained in A.16 would be applicable.

Q46. Is there any provision of joining internship in the last semester of academic curriculum?

A46. The institute allows last semester (8th semester) internship for **B. Tech students selected by recruiter for FTE role** that demands “**Internship prior to onboarding**” according to the notification No. 300/ACAD/2024 dated November 13, 2024 of the Institute. Students are advised to go through the said notification which is available in the institute’s website

Q47. How can I get permission/ NOC for joining internship in the last semester (8th semester) which precedes onboarding as FTE?

A 47. As per the institute’s notification No. 300/ACAD/2024 dated 13th November 2024, **B. Tech students selected by recruiter for FTE role** that demands “**Internship prior to onboarding**” are now allowed to join the internship program of the concerned recruiter in their last semester which is subject to fulfillment of **all academic requirements / stipulations**. Student-candidates are advised to comply the guideline in the said notification (including Annexure-A of the above-mentioned notification) for obtaining necessary approval/ permission/ NOC from the competent authority (ies) as applicable

Q48 Can I avail the campus placement opportunity in higher category during my engagement in internship (in the last semester for B. Tech course) resulted out of FTE selection/ offer in lower category job ?

A48 In brief the answer is ‘NO’.

To explain further, it may be noted that as per the academic calendar the last semester for B. Tech students commences on 1st working day of January. According to the provisions of the placement policy. B. TStudents selected for FTE role by a recruiter that demands “**last semester (8th) internship preceded by onboarding**” will remain **blocked as per Category norms till end-December prior to the commencement of last semester** in January. Following commencement of **last semester (8th)** in January, the students (selectees) will be reserved for the concerned recruiters (where the student is supposed to be engaged for internship) and **would be blocked from availing all further campus placement opportunities**. Students are advised to consult relevant clause of placement policy for further clarification.

Q49. Post-selection if a company imposes a new condition of agreement or undertaking/ bond amount and/ or asks the selected candidates to bear the cost of training, what should the candidates do?

A49. At times, post-selection some companies may come-up with new and additional conditions with or without financial implications. It is the prerogative of the selected students to agree or not to agree. If the selected students decline the offer (stating the reason) on this account, the student would be unblocked again (at the discretion of HRM department) to avail other campus placement opportunities conforming to the placement norms

Q50. What if the selection process/ recruitment events get stopped after the job notification and application of students or in the mid-way of selection drives?

A50. Such incidents may happen occasionally. HRM department follows up and pursues the recruiting company to complete the recruitment process successfully but the recruiting company is the sole decider about such affairs

Q51. I have been kept in the waitlist by a recruiter, am I supposed to get an offer later?

A51 Waitlist does not give guarantee for full time employment (FTE). Waitlisted students are not blocked for availing other campus placement opportunities conforming to the “placement norms”

Q52. Is it possible that my offer/ LOI might be revoked/ cancelled by the Company?

A52. Such cases are unusual and infrequent though unfortunate, it is not absolutely impossible as per past records. Students participating in placement drive are advised to get convinced that hiring of candidates for a profile by any recruiter is driven by demand and business prospect. Based on unfavourable market/ business situation, recruiters though very few in numbers, have found to come up with hard decision in the past. In such cases, the HRM department would pursue with the recruiters for the favor of students with utmost sincerity though past experience reveals very poor success rate in this respect. However, if it happens prior to the completion of placement cycle/ season, the concerned students will be unblocked from the respective category and allowed to participate in the next available job opportunities.

Q53. How do I know about onboarding schedule?

A53. The decision about onboarding schedule/ timing is the prerogative of the recruiter. The HRM department informs all the recruiters about the completion schedule of academic curriculum and result publication and the recruiters are suggested to plan their onboarding program accordingly. As per the usual practice, the recruiters inform the candidates directly about the onboarding plan/ schedule. However, if any recruiter informs the HRM department about the onboarding schedule, the same will be informed to the respective candidates accordingly.

Q54. What, if my onboarding is delayed?

A54. While fixing of onboarding timeline is purely recruiter's jurisdiction, departure from previously announced schedule or delay by couple of months might not be uncommon though most of the recruiters eventually completes the onboarding process as revealed from the past experience. As often reasoned by the recruiters that such delay is prompted by unfavorable economic, market/ business situation. Under such cases HRM department pursues with the recruiter to get revised onboarding/ joining schedule and keep the concerned students updated about the same.

Q55. Can I get my preferred place/ location of posting?

A55. It is recruiter's privilege to decide about place/ location of posting based on their business strategy and allied reasons. Some recruiters might ask for candidates' preferences prior to joining though ultimate decision regarding place of posting is taken by the recruiters

Q56. Is there any categorization of “Internship (during summer break) job opportunity”?

A56. There is no categorization for Internship opportunity.

Q57. I have been selected by one recruiter/ Company for Internship (summer break) through placement process of HRM department, can I get another opportunity to apply for an internship with a Company offering higher stipend?

A57. No way. Once a student is selected for internship (with stipend) through campus process, is blocked to avail any other opportunity of internship through Campus process. Students should note that the period of internship is short (only during summer break after 6th semester of B. Tech

students) and scope for such paid internship arranged through placement process of HRM department is often limited.

Q58. I got an offer of internship (summer) through campus process, can I forego it to avail some “better offer” of internship opportunity arranged through my own capacity?

A58. If the internship opportunity obtained through campus is accompanied with a provision of PPO, the student selected for the same, is mandated to accept it. Foregoing/ declining such opportunity would be construed as loss of an opportunity of a PPO simultaneously ruining a possible scope for another student who could have grabbed the internship opportunity and converted it to PPO..

Any such students who declines internship-offer got through campus for some “better offer” arranged by their own, would be considered that the concerned students are not interested for campus placement and accordingly they may be barred from participating in all campus placement opportunities (during their applicable placement cycle/ season), at the discretion of competent authority.

Q59. Do the recruiters provide feed-back about students’ performance in campus process?

A59. Although HRM department routinely requests the recruiters to provide the feed-back on students’ performance It has been experienced that most of the recruiters are not in favor of revealing any student-wise analyses for sake of confidentiality. However, some of them offer overall impression about the performance, arrangement, ambience etc which are compiled and periodically shared with the DTPC faculty members and student PRs..

Q60. Is there any arrangement/ mechanism for collecting feed-back from the participating students about the selection process?

A60. Student candidates who participated in all the stages/ rounds of evaluations of a selection drive of a specific recruiter but remained unsuccessful are encouraged to provide the feed back about the process to the HRM department. A compiled feed-back from students about different recruiting process is expected to be useful to ascertain action points/ steps to be considered by institute for betterment of placement status

Q61. Can I express/ share my feeling on placement issues in FB, Instagram or other social media?

A61. As a responsible student of this institute one must not express ill-feeling, write derogatory or sarcastic comments about any recruiting Company (or their representative) in any social-media platform (e.g. FB, twitter, Instagram or others) so as to tarnish the long-term relationship between the company and this institute and bringing disparagement to this institute in the interest of the subsequent batches. However, in the unfortunate event of any such genuine incident, students may report such cases to HRM department so as to be taken up at appropriate level

INFORMATION ON INBOUND JOB POST IN SUPERSET

Inbound job notification/ job posting in Superset

The “inbound job” notification is made by recruiters who also use “Superset” platform for recruitment activities. All information and inputs related to the “inbound job profile” are directly given, notified and updated by the concerned recruiters only as “ADMIN” or controlling authority.

Upon receipt of communication about “inbound job post” in superset from the recruiters HRM department would pass-on the same to the concerned students as applicable.

Application against inbound job notification

On receipt of notification in Superset for “inbound job” (by the recruiting Company as explained above), students are supposed to apply following the instructions/guidelines for the respective job profile, deadlines and other relevant details as available.

Updates for inbound job in Superset

Students must note that all updates related to “inbound job post” including screening, scheduling of events, shortlisting, providing links, results of selection etc are informed, notified and updated by the concerned recruiter only. The recruiting company being the controlling authority (ADMIN) for such “inbound job post” is solely responsible for all inputs, updates, revision/ modification etc related to the same. It should be noted that any inputs, updates, changes related to “inbound job post” in superset is beyond the scope of HRM department. However, if the recruiter communicates any specific & relevant information about “inbound job” with the HRM department, the same will be intimated to the students accordingly.
