

Placement Policy at IEST, Shibpur (IESTS): Placement Cycle 2025-2026

1.0 Preamble:

This Policy establishes overall guidelines and norms of placement processes in respect of full-time-employment (FTE) for concerned students seeking placement at the end of academic year as applicable through HRM department of IESTS. The policy devised based upon suggestions of students of previous batches, aims towards providing placement opportunities to all students of UG & PG of all academic units of IEST through utter fairness, transparency and integrity; while guiding principle of this policy remains: “optimizing interest of the majority students should not be compromised for the sake of maximizing interest of any individual or few.”

2.0 Disclaimer:

The role of HRM department towards placement activities / processes is of a facilitator for organizing, coordinating and facilitate for conducting the placement processes by the recruiters. It cannot guarantee any job to any particular student even being registered / enrolled for the placement process / cycle. This institute / HRM department reserves the right to review, revise, amend and update this policy as necessary from time to time. It is the responsibility of all stakeholders including students and others to stay informed about the current policy and comply with it as pertinent.

3.0 General Policy:

1. All the final year UG & PG students registered / enrolled for placement process, are eligible for the campus placement drives facilitated / arranged by the HRM department. Such students interested for availing placement opportunities must register & enroll for the placement process in “Superset” (a communicating portal of HRM department used for placement purpose) within the given window period prior to beginning of placement season for which a separate notification is published in institute’s website (<https://www.iests.ac.in/IEST/Notices/?type=Placement>)
2. Students not registered & Enrolled in Superset for the placement will be considered as either they are interested for higher studies or for self-employment/ entrepreneurship.
3. For answers to all other placement related queries/ questions, students are advised to go through “FAQs regarding Campus placements” which are shared with students registered for placement process.
4. All data filled-in by the students during Superset registration and subsequent updates of semester results etc must be genuine and authentic. HRM Department never checks / verifies the data entered in Superset by the students and would share them with the recruiters as per requirement. The onus of establishing authenticity of all data / inputs provided by the student in “Superset” lies solely with the respective student only.
5. Such students must update their semester results, CVs etc timely manner through their Superset account periodically. Students having incomplete/ inconsistent database in Superset, applying against a specific job profile, database of such students won’t be shared with the recruiter.
6. Given the uncertainty in respect of exact time frame or year of graduation of PhD students, currently provision of registration & enrolment of PhD students for a specific placement cycle in “Superset” does not exist. However, communication about job profiles meant for PhD candidates whenever received by HRM department from recruiters, the concerned students matching the specific profile’s criteria are contacted and encouraged to apply through the respective department HOD.

4.0 Categorisation of Job Profiles (FTE):

(Confidential document & for internal circulation only within IESTS. Posting/ publishing this document either in part or whole in public domain is strictly prohibited)

Categorization of Job profiles offered for campus placement drives, besides other subjective factors (viz. Company branding, admissibility of various disciplines & courses, internship opportunities, past recruitment record etc.) envisages pay-package considerations as per the following details.

Category A:

- Mainly IT services Companies considering students across many disciplines (Considered as mass recruiters) for their base profiles of job with annual CTC $\leq$ INR 4.5 Lakh.
- Other non-IT services profiles with annual CTC $\leq$ INR 3.6 Lakh.

Category B:

- All job profiles of IT services Companies with pay-package (annual CTC) above INR 4.5 lakh up to less than INR 10.0 Lakh.
- All other non-IT services job profiles and considering only domain specific discipline with a package annual CTC greater than 3.6 Lakh to less than INR 10.0 Lakh.

Category C:

- All job profiles offered by the recruiters not under category A or B and pay-package with annual CTC INR 10.0 Lakh and above.

4.1 Mandates & norms in respect of categorization:

- ✚ It is Mandatory for all students (who are found eligible) to sit for the campus drive of **at least 2 Category 'A' Company**.
- ✚ Securing a Job in 'A' category will not affect a student's **eligibility** to appear for category 'B' or 'C'.
- ✚ Securing ONE JOB in 'B' category will restrict a student from appearing in any of category 'B' job Profile (blocked for category B). He /She will be **eligible to appear** in category 'C' job profile.
- ✚ Securing ONE JOB in 'C' category will **restrict a student** in principle from appearing in any of the upcoming opportunities (blocking from all categories).
- ✚ There is **no categorization for internship (summer internship for pre-final year students)** profile. Students with a **PPO (pre-placement offer)** as a consequence of **campus internship placement** are **not allowed to avail** any other campus placement opportunities irrespective of category.
- ✚ B. Tech Students selected for FTE role by a recruiter that demands "**last semester (8th) internship preceded by onboarding**", such students will remain **blocked as per Category norms till end-December prior to the commencement of last semester** in January. Following commencement of **last semester (8th)** in January, the students (selectees) will be reserved for the concerned recruiters and **would be blocked from availing all further campus placement opportunities**. However, if any such student is unable to join the last semester internship program and if the same is communicated officially to HRM department & the recruiter, the selection of the student will be **revoked** and the student will be **unblocked to avail** further campus placement opportunities **only in higher category** as applicable as per the placement policy.

4.2 Important Notes

4.2.1. *The above categorization is suggested as standard norm. However, it may vary under special circumstances depending on situation and in consideration of larger interest of the students and at the discretion of HRM department and/or any other competent authority of the institute.*

4.2.2. *Since placement scenario is largely market & demand driven, Categorization may change with market and overall economic conditions depending upon when market is more competitive and under stress or when market is favourable offering more opportunities.*

4.2.3. *Any offer to any student by any company through individual initiative or through referral and not through campus placement process organized by HRM department, would not come under the purview of*

(Confidential document & for internal circulation only within IESTS. Posting/ publishing this document either in part or whole in public domain is strictly prohibited)

above norms unless such selections/ offers are officially communicated to HRM department for information / confirmation / endorsement / verification etc. However, students securing such jobs and willing to join them, are expected to inform such selection to HRM department so that campus opportunities can be extended to other students.

4.2.4. Campus hiring by Companies is driven by demand & business prospect. Based on communication of confirmed selection by recruiter student(s) will be blocked as per category norms. Onboarding is prerogative of recruiter on which HRM department or this Institute as a whole has no control. In case of prolonged delay / postponement of onboarding or offer withdrawal, the HRM department would pursue with the recruiters for the favor of students though without any assurance of positive outcome. If such unfortunate/ hard decision is communicated by the recruiter before completion of placement cycle of the respective batch, the concerned student will be unblocked and allowed to participate in the next available campus opportunities. There have been a few such unfortunate cases of revocation of job offers in the recent past badly affecting the students, who were blocked for further campus opportunities due to selection. It is considered as inevitable risk for any recruitment process, particularly in private sector.

5.0 Placement Process – Norms & Regulations for students:

5.1 Upon receipt of recruiter's official confirmation to partake in campus recruitment drive with relevant inputs of a "job profile", a Job Notification inviting application from the eligible students within the deadline will be published through Superset. Deadlines for Superset application, application in Job link/ company's portal and / or filling of Google-form (as the case may be) related to placement process must be honored by the student-applicants. Missing deadline can't be helped, and would lead to loss of opportunity for the students.

5.2 Eligibility criteria in respect of Marks / CGPA, courses, disciplines, backlog etc for a Job profile are set by recruiter for which HRM department or this institute has no role or control on the same.

5.3 Date / slots for conducting selection drives are decided/ allotted based on the mode (online/ offline/ hybrid), profile matrix, spectrum of branches and / or courses involved, recruiter's preference, availability in campus calendar, past statistics and mutual convenience. Process notifications/ schedules, instructions etc of selection process are communicated to the students through Superset and / or email.

5.4 Selection drive may take place through online / offline / physical or hybrid mode. Based on recruiters, preference, physical mode of process may occur in campus, other college campus (in case of pool campus), recruiters' office premises or in other locations. It is mandatory for the Students shortlisted for such processes, to participate in the drive.

5.5 The institute allows last semester (8th semester) internship for **B. Tech students selected by recruiter for FTE role** that demands "**Internship prior to onboarding**" according to the notification No. 300/ACAD/2024 dated November 13, 2024 of the Institute. In order to join such internship program in the last semester (8th), student-candidates are advised to comply the guideline in the said notification (including Annexure-A of the above-mentioned notification) for obtaining necessary approval / permission / NOC from the competent authority(ies) as applicable which is subject to fulfillment of **of all academic requirements / stipulations**.

5.6 Stipends during the internship is expected to be different from the pay-package announced by recruiter for FTE role and it is as per the discretion of the recruiter/ Company.

5.7 This institute does not encourage / focus on "only internship" (or internship alone) in the last semester (8th semester) for UG/ B. Tech students without any confirmation of onboarding in FTE role. However, it is noted that some recruiters prefer to offer last semester internship (paid) followed by a process of evaluation for possible conversion to FTE role. HRM department may notify such profiles to the target group of

students for strategic reasons with information as available. Students selected from such process will need to comply necessary placement norms including blocking as applicable for FTE selection.

5.8 It is the responsibility of the students to check and comply with all the notifications/ updated information/ announcements for any placement process as cascaded through Superset and/ or email communications from time to time. Honouring the deadline and participation in the process in the timely manner are mandatory. Missing the deadline and/ or being late in attending the process would lead to rejection of candidature.

5.9 Shortlisting / screening of student-applicants at any stage is sole prerogative of the recruiter for which this institute or HRM department has no role. Students shortlisted for any placement drive must participate in all the levels / steps of selection unless rejected by the concerned recruiter. Voluntary withdrawal by the students at any stage of selection is strictly not allowed.

5.10 Students must maintain discipline and comply rules of selection process set by the recruiter and demonstrate ethical and disciplined behaviour / approaches during participation in the process. Any student found or reported by the recruiting team for flouting the discipline rules, found or reported by the recruiter for adopting unfair means or misbehaving during participation of the process (PPT, test, GD, interview as applicable), would be liable to face serious consequences including blocking from participation in the placement processes for the entire academic year.

5.11 If a student is found to be **absent** at any stage of the selection process (after his/her name is screened / shortlisted in any of the preceding stage by the recruiter), the same student **likely to be barred** for next two companies in same or higher category at the discretion of HRM department/ competent authority of the institute.

5.12 If a student found eligible but not applied against **consecutive 5 job notifications** (irrespective of categories), it will be construed as the concerned student is inclined to pursue higher studies or entrepreneurship instead of job through campus placement and may be barred from availing further opportunities.

5.13 If a student found eligible but not applied against **consecutive 3 job notifications** of a specific category, it will be construed as the concerned student is not interested for placement in the same category and subsequently the student will be blocked in that category. However, the student would remain open for job application only in higher category/ categories, if any.

5.14 Concerned recruiters are requested to declare PPO prior to the commencement of placement season in end August/ early September. However, students will remain open for availing campus opportunities till the PPO is announced. PPO or campus FTE recruitment whoever declares the result earlier, selected students will be blocked for the same recruiter.
